SUMMARY

Dynamic Full Stack Developer specializing in the MERN stack with a proven track record of building scalable, high-performance web applications. Expertise in crafting seamless user experiences across various domains, including e-commerce, localized payment systems, and administrative platforms. Focused on delivering technical excellence that drives measurable business outcomes and user satisfaction.

EXPERIENCE

Software Development Intern

Prodigy InfoTech

Oct 2024 – Dec 2024

Remote, India

- Collaborating in an agile environment to deliver modular React components, improving code reusability across projects.
- Refined legacy codebases for performance and SEO, resulting in a 25-point average improvement in Lighthouse scores.

Personal Projects Developer

Self-Employed | Personal Projects

Jan 2023 – Present

Addis Ababa, Ethiopia

- Designed and developed full-stack web applications using React, Node.js, Express.js, MongoDB, PHP, and MySQL.
- Developed responsive and interactive user interfaces using JavaScript, HTML, CSS, and Tailwind CSS.
- Implemented RESTful APIs and integrated frontend and backend components to manage real-time data and user workflows.
- Applied data structures and algorithms to solve programming challenges and improve application performance.
- Used Git and GitHub for version control and project management.

EDUCATION

B.Sc. in Computer Science

Unity University

Mar 2022 – Apr 2026

Addis Ababa, Ethiopia

- Relevant Coursework: Data Structures and Algorithms, Database Systems, Software Engineering, Computer Networks, Operating Systems, Web Development.
- Final Year Project: Driving License Management System — Developed a full-stack web application using React, Node.js, MongoDB, and REST APIs to manage license applications, exam scheduling, and user dashboards.
- Activities: Built multiple personal projects and completed hands-on training in frontend and full-stack development.

SKILLS

- Frontend: React, Next.js, Redux, Tailwind CSS, Framer Motion, GSAP
- Backend: Node.js, Express, MongoDB, RESTful APIs, Socket.io, JWT
- Languages: JavaScript (ES6+), TypeScript, Python, C++, Java
- Tools: Git, GitHub, Docker (Basic), Postman, Vite, VS Code, Figma

PROJECTS

PinQuest

Full Stack Developer

React 19, Node.js, MongoDB, Socket.io

- Built a real-time social mapping platform for high-performance location discovery using React 19 concurrent features.
- Optimized data synchronization through Socket.io, ensuring seamless real-time interactions for users.

DLMS - Driving License Management

Full Stack Developer

React, Material-UI, Node.js, JWT

- Developed a comprehensive digital verification system, reducing manual license processing time.
- Built a secure admin dashboard with role-based access control (RBAC) to streamline verification operations.

NEEON

Full Stack Developer

React, Node.js, Express.js, MongoDB, JWT, Google OAuth

- Developed a full-stack blogging platform with secure authentication, role-based access control, and a responsive user interface for creating, editing, and managing posts.
- Implemented features such as comments, likes, categories, image uploads, and an analytics dashboard to track user engagement and content performance.
