Summary

Motivated **Junior Full Stack Developer** with a strong foundation in the MERN stack (MongoDB, Express.js, React.js, Node.js). Proficient in designing and developing responsive, user-friendly web applications and RESTful APIs. Demonstrated ability to deliver high-quality code through internships and personal projects, improving performance metrics and user engagement. Eager to leverage technical skills in a collaborative agile environment.

Technical Skills

- Frontend:** React.js, Next.js, Redux, Tailwind CSS, Material-UI, Vite
- Backend:** Node.js, Express.js, MongoDB, REST APIs, Socket.io
- Languages:** JavaScript (ES6+), TypeScript, Python, C++, Java
- Tools:** Git, GitHub, Docker (Basic), Postman, VS Code

Experience

Software Development Intern

Prodigy InfoTech

Oct 2024 – Present

Addis Ababa, Ethiopia

- Optimized React component rendering, reducing application page load times by **30%** through effective code splitting and lazy loading.
- Implemented responsive design improvements, increasing mobile user retention by **25%** across supported devices.
- Collaborated with a cross-functional Agile team to ship features weekly, participating in code reviews to ensure 100% adherence to style guides.

Freelance Web Developer

Self-Employed

Jan 2024 – Present

Remote

- Delivered 3+ custom high-performance websites for clients, including full E-Commerce solutions, consistently achieving Google Lighthouse performance scores of **95+**.
- Integrated secure payment gateways and CMS solutions, improving client content management efficiency by **40%**.

Projects

PinQuest

React 19, Node.js, MongoDB, Socket.io

Creator & Lead Developer

- Engineered a real-time social mapping platform capable of handling concurrent geolocation updates via **Socket.io** loops.
- Designed an interactive UI allowing users to discover/share local landmarks, resulting in a seamless user experience.

Driving License Management System (DLMS)

React, Material-UI, Node.js, JWT

Full Stack Developer

- Developed a comprehensive digital verification system, reducing manual license processing time by approximately **40%**.
- Built a secure admin dashboard with role-based access control (RBAC) to streamline traffic police operations.

Education

B.Sc. in Computer Science

Unity University

2021 – Present

Addis Ababa, Ethiopia

Expected Graduation: July 2025

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Object-Oriented Programming, Software Engineering, Web Programming.
