PROFESSIONAL EXPERIENCE

Senior Full-Stack Software Engineer

Various Client Projects *2020 - Present*

- Developed and maintained full-stack web applications using React, Node.js, and modern CSS frameworks
- Created e-commerce platforms with payment integration for diverse clients including government organizations and private companies
- Implemented admin and dispatching systems for business operations
- Integrated payment systems including Visa and local bank payment methods
- Developed e-learning platforms and SMS subscription systems

Full-Stack Developer

Freelance *2018 - 2020*

- Delivered custom web solutions and e-commerce platforms for diverse clients
- Developed dynamic websites using JavaScript, Python, and modern CSS frameworks
- Collaborated directly with clients to translate requirements into functional MVPs
- Optimized legacy codebases for better performance and SEO rankings

KEY PROJECTS

PinQuest - Social Mapping Platform

A free, high-performance social mapping platform for explorers. Allows users to discover hidden gems, share local landmarks, and connect in real-time on a beautifully designed interactive map. Built with React 19.

DLMS - Driving License Management System

A comprehensive digital platform for managing driving license applications, renewals, examinations, and verifications with admin dashboards and traffic police integration. Features user authentication, license management, and exam scheduling.

Furni - Modern Furniture E-commerce Platform

Modern e-commerce platform that transforms living spaces with premium quality furniture, sleek design, and an exceptional shopping experience. Built with React, Vite, and Tailwind CSS.

NEEON - Full-Stack Blog Platform

A modern, full-stack blog platform with user-facing and admin interfaces, featuring content management, analytics, and responsive design.

Banking System in C++

Comprehensive banking system implementation in C++ with account management, transaction processing, and security features.

EDUCATION

Bachelor of Science in Computer Science

University of Technology | 2018 - 2022
